Mazda MX-5 Miata-Thomas Bryant 2014-11-01 Celebrating a quarter century of the car that redefined its genre. [apply edits made above] The Mazda MX-5, (known as Miata in North America and Eunos Roadster in Japan), revolutionized the lightweight two-seater roadster market. By taking the front-engine, rear-wheel-drive layout of traditional British and Italian roadsters and combining it with the modern function and reliability for which Japanese cars were justly famous, Mazda created what many consider the perfect sports car. The MX-5 became the best-selling sports car of all time, selling over a million units worldwide. Customers proved that they hadnâ€™t lost their desire for simple, lightweight two-seat convertibles; they had simply lost their desire for unreliable, archaic European anachronisms that caught on fire as part of their charm. In 2009, English automotive critic Jeremy Clarkson wrote: “The fact is that if you want a sports car, the MX-5 is perfect. Nothing on the road will give you better value. Nothing will give you so much fun. The only reason Iâ€™m giving it five stars is because I canâ€™t give it 14.â€ Mazda MX-5 Miata: Twenty-Five Years is a handsomely-illustrated coffee-table book celebrating Mazdaâ€™s ground-breakingMX-5 Miata, the car that revolutionized the lightweight two-seater roadster market.

The Living Sea of Waking Dreams-Richard Flanagan 2021-05-25 From the acclaimed Booker Prize-winning author comes a dazzling novel of family, love and love's disappointments Anna's aged mother is dying. Condemned by her children's pity to living, subjected to increasingly desperate medical interventions, she turns her focus to her hospital window, through which she escapes into visions of horror and delight. When Anna's finger vanishes and a few months later her knee disappears, Anna too feels the pull of the window. She begins to see that all around her, others are similarly vanishing, yet no one else notices. All Anna can do is keep her mother alive. But the window keeps opening wider, taking Anna and the reader ever deeper into an eerily beautiful story of grief and possibility, of loss and love and orange-bellied parrots. Hailed on publication in Australia as Richard Flanagan’s greatest novel yet, The Living Sea of Waking Dreams is a rising ember storm illuminating what remains when the inferno beckons: one part elegy, one part dream, one part hope.

The Last Days of New Paris-China Miéville 2016-08-09 A thriller of war that never was—of survival in an impossible city—of surreal cataclysm. In The Last Days of New Paris, China Miéville entwines true historical events and people with his daring, uniquely imaginative brand of fiction, reconfiguring history and art into something new. “Beauty will be convulsive. . . .” 1941. In the chaos of wartime Marseille, American engineer—and occult disciple—Jack Parsons stumbles onto a clandestine anti-Nazi group, including Surrealist theorist André Breton. In the strange games of the dissident diplomats, exiled revolutionaries, and avant-garde artists, Parsons finds and channels hope. But what he unwittingly unleashes is the power of dreams and nightmares, changing the war and the world forever. 1950. A lone Surrealist fighter, Thibaut, walks a new, hallucinogenic Paris, where Nazis and the Resistance are trapped in unending conflict, and the streets are stalked by living images and texts—and by the forces of Hell. To escape the city, he must join forces with Sam, an American photographer intent on recording the ruins, and make common cause with a powerful, enigmatic figure of chance and rebellion: the exquisite corpse. But Sam is being hunted. And new secrets will emerge that will test all their loyalties—to each other, to Paris old and new, and to reality itself. Praise for The Last Days of New Paris “Beautiful, stunningly realized . . . [The Last Days of New Paris] is a brief vacation in alien latitudes, a midnight layover in an imaginary place.”—NPR “A thoughtful, highbrow novella . . . Miéville’s self-assured style offers up a strong sense of humanity, while the strange Surrealist monsters give Last Days a fun and complementary mad-science component.”—USA Today “[A] testament to the necessary, progressive power of art . . . Both moving and disturbingly timely.”—Newsday “A novel both unhinged and utterly compelling, a kind of guerrilla warfare waged by art itself, combining both meticulous historical research and Miéville’s unparalleled inventiveness.”—Chicago Tribune “An extraordinarily original work that foregrounds Mieville’s considerable ingenuity and innovation.”—The Millions “Hauntingly poetic, strangely beautiful, and erratically intense.”—San Francisco Book Review “Dazzling . . . quite a feat.”—The Guardian

Nothing Personal-Nancy Jo Sales 2021-05-18 A raw and funny memoir about sex, dating, and relationships in the digital age, intertwined with a brilliant investigation into the challenges to love and intimacy wrought by dating apps, by firebrand New York Times–bestselling author Nancy Jo Sales At forty-nine, famed Vanity Fair writer Nancy Jo Sales was nursing a broken heart and wondering, “How did I wind up alone?” On the advice of a young friend, she downloaded Tinder, then a brand-new dating app. What followed was a raucous ride through the world of online dating. Sales, an award-winning journalist and single mom, became a leading critic of the online dating industry, reporting and writing articles and making her directorial debut with the HBO documentary *Swiped: Hooking Up in the Digital Age*. Meanwhile, she was dating a series of younger men, eventually falling in love with a man less than half her age. *Nothing Personal* is Sales’s memoir of coming-of-middle-age in the midst of a new dating revolution. She is unsparingly honest about her own experience of addiction to dating apps and hilarious in her musings about dick pics, sexting, dating FOMO, and more. Does Big Dating really want us to find love, she asks, or just keep on using its apps? Fiercely feminist, *Nothing Personal* investigates how Big Dating has overwhelmed the landscape of dating, cynically profiting off its users’ deepest needs and desires. Looking back through the history of modern courtship and her own relationships, Sales examines how sexism has always been a factor for women in dating, and asks what the future of courtship will bring, if left to the designs of Silicon Valley’s tech giants—especially in a time of social distancing and a global pandemic, when the rules of romance are once again changing.

Couple Found Slain-Mikita Brottman 2021-07-06 Critically acclaimed author and psychoanalyst Mikita Brottman offers literary true crime writing at its best, taking us into the life of a murderer after his conviction—when most stories end but the defendant's life goes on. On February 21, 1992, 22-year-old Brian Bechtold walked into a police station in Port St. Joe, Florida and confessed that he’d shot and killed his parents in their family home in Silver Spring, Maryland. He said he’d been possessed by the devil. He was eventually diagnosed with schizophrenia and ruled “not criminally responsible” for the murders on grounds of insanity. But after the trial, where do the “criminally insane” go? Brottman reveals Brian’s inner life leading up to the murder, as well as his complicated afterlife in a maximum security psychiatric hospital, where he is neither imprisoned nor free. During his 27 years at the hospital, Brian has tried to escape and been shot by police, and has witnessed three patient-on-patient murders. He’s experienced the drugging of patients beyond recognition, a sadistic system of rewards and punishments, and the short-lived reign of a crazed psychiatrist-turned-stalker. In the tradition of *One Flew Over The Cuckoo’s Nest*, *Couple Found Slain* is an insider’s account of life in the underworld of forensic psych wards in America and the forgotten lives of those held there, often indefinitely.

Ford FE Engines-Barry Rabortnick 2018-06-15 Ford FE engines, which were manufactured from the late 1950s all the way through the mid-1970s, were designated as the large-displacement engines in the Ford lineup. FE means Ford Edsel, and reflects an era when Ford sought to promote the Edsel name. The design of these engines was implemented to increase displacement over its predecessor, the Y-Block engines of the previous decade. Early models were fairly modest in displacement, as were most big-blocks of the era, but they grew quickly to fill the needs of rapidly changing chassis requirements and consumer demand for larger vehicles. As it grew, the FE engine performed admirably as a heavy passenger car and light truck engine. It also became quite accomplished in performance circles, winning the 24 Hours of Le Mans, as well as powering Ford’s muscle car and drag racing programs in the mid- to late 1960s. In this book, you will learn everything you need to know to rebuild one of these legendary engines. CarTech’s unique Workbench series format takes you step-by-step through the entire rebuilding process. Covered are engine identification and selection, disassembly, cleaning, parts analysis and assessment, machine shop processes, replacement parts selection, re-assembly and start-up/break-in techniques. Along the way you find helpful tips on performance upgrades, trouble spots to look for, special tools required, and professional builder’s tips. FE master, owner of Survival Motorsports, and veteran author Barry Rabortnick shares all of his tricks and secrets on building a durable and reliable FE engine. Whether you are simply rebuilding an old truck for reliable service use, restoring a 100-point show car, or building the foundation for a high-performance street and strip machine, this book will be an irreplaceable resource for all your future FE engine projects.

Automotive Machining-Mike Mavrigian 2017-04-17 Machining is an essential part of high-performance engine building and stock rebuilding, as well as certain servicing procedures. Although you may not own the expensive tooling and machining to perform all or any of the machining required for a quality build, you need to understand the principles, procedures, and goals for machining, so you can guide the machining process when outsourced. Classic and older engines typically require extensive machining and almost every major component of engine, including block, heads, intake, crankshaft, and pistons, require some sort of machining and fitment. A detailed, authoritative, and thorough automotive engine-machining guide for the hard-core enthusiast has not been available until now. Mike Mavrigian, editor of *Engine Building Professional*, walks you through each important machining procedure. A stock 300-hp engine build has far different requirements than a 1,000-hp drag race engine, and Mavrigian reveals the different machining procedures and plans according to application and engine design. The author also shows you how to inspect, measure, and evaluate components so you can provide astute guidance and make the best machine work choices. Machining procedures included are cylinder boring, align boring/honing, decking, valveseat cutting, cam tunnel boring, and a multitude of other services. In addition, multi-angle valve jobs, setting the valveseats, altering rocker arm ratio, re-conditioning connecting rods, and machining and matching valvetrain components are also covered. Whether you’re an enthusiast engine builder or prospective machining student who wants to pursue a career as an automotive machinist, this book will provide insight and in-depth instruction for performing the most common and important machining procedures.

Summer on the Bluffs-Sunny Hostin 2021-05-04 Emmy Award winner, renowned lawyer and journalist, *The View* cohost, and National Bestselling author Sunny Hostin dazzles with this brilliant novel about a life-changing summer along the beaches of Martha’s Vineyard. Welcome to Oak Bluffs, the most exclusive black beach community in the country. Known for its gingerbread Victorian-style houses and modern architectural marvels, this picturesque town hugging the sea is a mecca for the crème de la crème of black society—where Michelle and Barack Obama vacation and Meghan Markle has shopped for a house for her mom. Black people have lived in this pretty slip of the Vineyard since the 1600s and began buying property in the 1800s, making this posh town the embodiment of “old money.” Thirty years ago, Amelia Vaux Tanner and her husband built a house high on the bluffs, a cottage they named Chateau Laveau. For decades, “Ama” played host to American presidents, Wall Street titans, and cultural icons. But her favorite guests have always been her three “goddaughters:” Esperanza “Perry” Soto, a beautiful, talented Afro-Latina lawyer with Ama’s strong, yet guarded personality; Olivia Jones, a gifted Wall Street analyst with Ama’s brilliant, logical mind; and Billie Hayden, a gifted marine biologist and rule-breaker with Ama’s courageous free spirit. Growing up, these three goddaughters from different backgrounds came together each summer at Chateau Laveau. As adults, the cottage is a place this trio of successful yet very different women go to escape, to slow down from their hectic lives, share private time with Ama, and enjoy the gorgeous weather, cool water, and stunning views Oak Bluffs offers. This summer on the Bluffs, however, will be different. An era is ending: Ama, now nearing seventy-one, is moving to the south of France to reunite with her college sweetheart. She has invited Perry, Olivia, and Billy to spend one last golden summer together with her the way they did when they were kids. And when fall comes, she is going to give the house to one of them. Each of the women wants the house desperately. Each is grappling with a secret she fears will hurt her and her chances. By the end of summer, old ties will fray, new bonds will be created, and these three found sisters will discover they aren’t the only ones with something to hide. Ama has a few secrets of her own. What she has to give them is far more than property. Between Memorial Day and Labor Day, she will tell these surrogate daughters she fiercely loves and protects everything they never knew they needed to know.
